Career Objective

Seeking a job as Software Developer, self-confidence, hard working with consistent graph in education.

Education

- **R.V.R. & J.C. College Of Engineering -** *Guntur, India*
  Bachelor of Technology - Computer Science and Engineering CGPA: 8.77/10 | (2020 - 2024)
  - Pursuing Honors in Computer Science
- **Narayana Junior College -** *Guntur, India*
  Higher Secondary School, Stream: M.P.C. CGPA: 9.75/10 | (May 2020)
- **Dr. KKR Goutham concept school-** *Tenali, India*
  Secondary School CGPA: 9.8/10 | (May 2018)

Projects

- **Dog Breed Identification**

  TensorFlow, a powerful deep learning framework, can be leveraged to identify dog breeds from input images. The model's output consists of a visually informative bar plot, presenting the correct dog's name with a high probability, indicating the most likely breed prediction based on the image analysis.

  Tech stack: TensorFlow, Python, Keras.

- **Cyber Security project Using Burp Suit.**
  Solving Juice Shop challenges of 3 star using Burp suit (powerful web application security testing tool with features like repeater, scanner, proxy, intruder.)

Skills

Languages	Python, C, HTML, CSS, JavaScript,Java.
Frameworks	Nodejs, Reactjs, Express.
Database Management	Oracle SQL, MongoDB.
Soft Skills	Good analytical and problem-solving skills, proficient in verbal and communication skills and Event management.

Certifications

- Google Data Analytics Professional Certificate.
- AWS Academy Cloud Foundations.
- NPTEL – Ethical Hacking.
- NPTEL - Programming in Modern C++.

Volunteer Experience

- **Event Organizer for the Association for Computing Machinery (ACM) Student Chapter**
  Organized and managed a series of coding events and competitions, encompassing both in-person and virtual formats, with the objective of involving and inspiring students from various departments within the college.
